Verse of the week

So let's not get tired of doing what is good. At just the right time we will reap a harvest of blessing if we don't give up. Galatians 6:9

Growing fruit takes time!
Circle the fruit that takes the longest to grow

Watermelons take 3 moths to grow
Strawberries take 6 months to grow
Bananas take between 9 – 18 months to grow
Pineapples can take 2 years to grow
Apple trees can take 3 – 5 years to grow!!

We can enjoy yummy fruit if we don't give up waiting for it to grow.

It also takes time for us to grow in our learning

We don't learn new skills overnight, but we will learn if we don't give up.

Good things take time to grow!

Let's pray: God help me not to give up learning when things become difficult. Thanks that you are growing good things in my life. Amen.
